

GEOCRIS provides innovative and effective solutions to your security, communications, management, and policy needs.

GEOCRIS Consultants, Inc.

MOBILE EMERGENCY RESPONSE CENTER

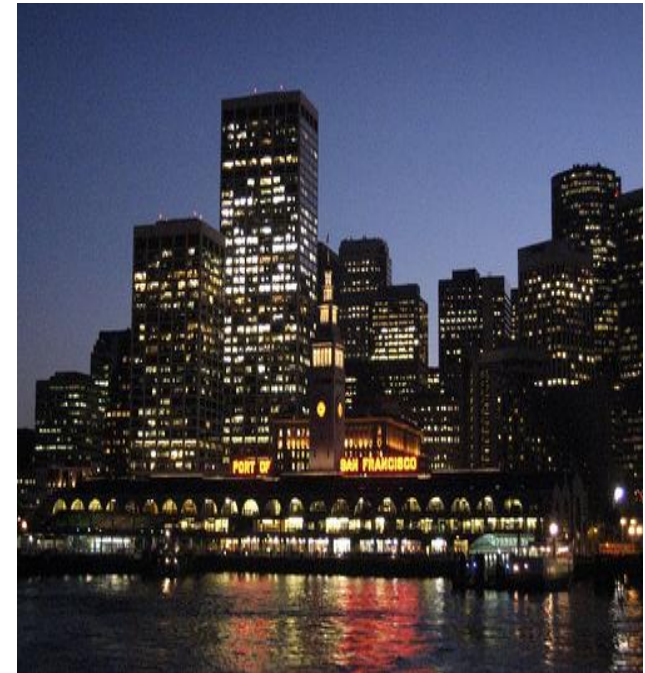

GEOCRIS is a multi-faceted Security and Communications company and an authorized sales outlet for the latest emergency management product that offers superior, on-site Emergency Communications; the Mobile Emergency Response Center (MERC). GEOCRIS believes the real value of a mobile communication system is the ability of first responders to have effective communication within minutes during times of disaster.

COMPUTER SECURITY SOLUTIONS

Modern technology demands constant vigilance to safeguard your valuable information and IT systems. Your clients deserve the peace of mind that comes with knowing their privileged information is secure. Our technicians will assist you in making certain your confidential information remains safe.

TRAINING DIVISION

GEOCRIS boast an extensive group of highly-experienced instructors in multiple disciplines, which includes a credentialed Master Instructor. Most GEOCRIS training experts have over 20-years experience in their specialties and have been highly recognized by their superiors and peers as the best in their respective fields.

Our Solutions Work For Your Business!

GEOCRIS is committed to excellence in serving your company, large or small, and helping your safety and security criteria soar to new heights.

OUR DYNAMIC SERVICES

RISK MANAGEMENT • EMERGENCY AND DISASTER MANAGEMENT • AVIATION SECURITY • PROGRAM MANAGEMENT • CARGO AND PORT SECURITY • TRAINING

SAFETY MANAGEMENT SYSTEM (SMS)

The goal of an SMS is to effectively manage and monitor risk within an organization. Although only one component of a complete Safety Program, its importance is paramount. Our formally-trained staff of experts will take your organization through the entire SMS process and provide the framework to identify hazards, categorize risks, document efforts, mitigate risks when necessary, and measure results and effectiveness.

RISK MANAGEMENT

Your company's personnel and assets are extremely valuable. Sometimes expert consultation is necessary when unforeseen challenges are present. At GEOCRIS, we understand the need for professional, confidential, and prompt results, so your staff remains safe and infrastructure remains secure and productive. Together, we can build a customized portfolio that meets your specific needs.

EMERGENCIES AND DISASTERS

We have forward-leaning approaches to preparation. Having the proper awareness and information at the right time provides for optimum decision making. GEOCRIS provides expert Emergency Management solutions by harnessing the most proven Mitigation, Preparedness, and Response and Recovery specialists in the nation. Our team of highly-trained Emergency Managers combines experience from the First Responder echelon to Executive-Level Decision Makers, offering the most comprehensive Emergency Management solutions available.

AVIATION SECURITY SERVICES

Our highly-qualified and specialized staff has vast experience in the aviation industry. Our focus is mentoring your agency and applying sound security and safety guidelines that exceed your expectations.

We accomplish these mutual goals by applying our professional management consultation with prompt, real-time Threat Assessments. Working with current and accurate intelligence profiles, we construct a security portfolio that is specifically tailored to your company's needs. Most critical infrastructures around the world continue to be vulnerable to compromise or attack. GEOCRIS can identify vulnerability areas, mitigate potential risks, and completely secure the assets that are most critical to the survival of commerce and global security.
